Overview

Winner Nippon Leatherette Pvt. Ltd.

Winner Nippon Leatherette Pvt. Ltd., a unit of Raglan Group manufacturing the highly consumed technical textile PVC and PU Synthetic leather of international standards since 2006. we have fully equipped plants for 100% PU, both dry processing and wet coagulation.

We have developed PRO 65 & REACH Compliance products, this development has taken us further towards our commitment to **Green Worlds** and our tagline is “ **NO ANIMAL KILLING**” to be appreciated in the Industry circle protecting the Health & Environment.

Our world-class infrastructure consists of full range of machinery to fulfil our knitting, processing. Heat setting, coating, embossing, printing, lacquering, tumbling and laminating needs. We value quality and innovation, thus, our physical, chemical and Product development laboratories are capable of testing predominantly all properties of artificial leather for different segments and applications.

We have been certified with *ISO 9001:2015* (Quality Management System) Which is Demonstrative as our commitment to designing and manufacturing artificial leather through effective implementation of systems and continual improvements in all our processes.

Our CMD

Mrs. Ritu Singal

Step into the realm of innovation and sustainability with Winner Nippon Leatherette Pvt. Ltd., a dynamic powerhouse within the Raglan Group since 2006. Under the visionary leadership of Mrs. Ritu Singal since 2007, we have emerged as a pioneering force in India's synthetic leather industry.

Crafting Excellence in Every Fiber: Embark on a journey through our extensive range of 100% PU/Semi PU/PVC/Bio-based Sustainable leather fabrics, meticulously designed to international standards. Our leather varieties, from the luxurious Napa to the exotic Crocodile, boast features such as lightweight design, high strength, aging resistance, and an array of stunning finishes.

"Businesses must constantly innovate to keep up with the times. Therefore, the foundation of our activities is forward-thinking concepts. We believe in going above and beyond the norm and pursuing greatness. So, embracing an eco-friendly approach to synthetic leather production"

Our vision is to contribute towards environment protection, social needs and by adding highly technical products which will create demand worldwide and create “Made in India’ Brand Equity.

Our aim is to drive profitable growth by providing an excellent customer experience through consistency, high-quality products, and service, with great stakeholder relationships, in a sustainable manner.

Trust, Transparency, and integrity are our core guiding principles that govern all our actions, decisions, and endeavors. We are highly committed to abiding by ethical, legal, and moral business practices and giving back to society at large.

“Work with us for a winning client relationship. We're responsive, we're reliable, we're your ultimate ally, We are the **Winner**”

Policy & Certificates

Winner Nippon Leatherette Pvt Ltd strives to achieve world-class manufacturing standards in highly consumed technical textiles PVC and Polyurethane (PU) synthetic leather. We are committed to satisfying our customers by providing a diverse range of quality products and timely deliveries as per their requirements.

We shall achieve this by implementing and continually improving the effectiveness of a quality management system by setting and reviewing quality objectives.

The organization is certified to "**Quality Management System**" *ISO 9001:2015*, as well as *ISO 13485:2016* and *CE Marking* for Medical Devices.

In addition, the company follows *Lean Six Sigma* practices to achieve excellence in all activities, with an improved working culture initiated with 5S and Kaizen, GEMBA Walk, Kanban system, 5 Whys, Ishikawa diagram, Pareto chart, etc.

PRO 65 & REACH Compliance

Our product meets all requirements of PROP 65 and REACH to improve the protection of human health and the environment. It also promotes alternative methods for the hazard assessment of substances in order to reduce the number of tests on animals. This applies to all chemical substances, not only those used in industrial processes but also in our day-to-day lives. For example, in cleaning products, paints, as well as in articles such as clothes, furniture, and electrical appliances. Therefore, the regulation has an impact on most companies across the world.

Footwear

Artificial leather is widely used in the footwear industry because of its fantastic variety and high durability. We produce a beautiful collection of specialized PVC vinyl and PU synthetic leather for the footwear industry. We offer products for various parts of footwear like shoe uppers, shoe lining, and insoles. These products find application in formal shoes and boots, sports shoes, sandals, and slippers as well as high-end women's footwear. All the product ranges are as per BIS standards.

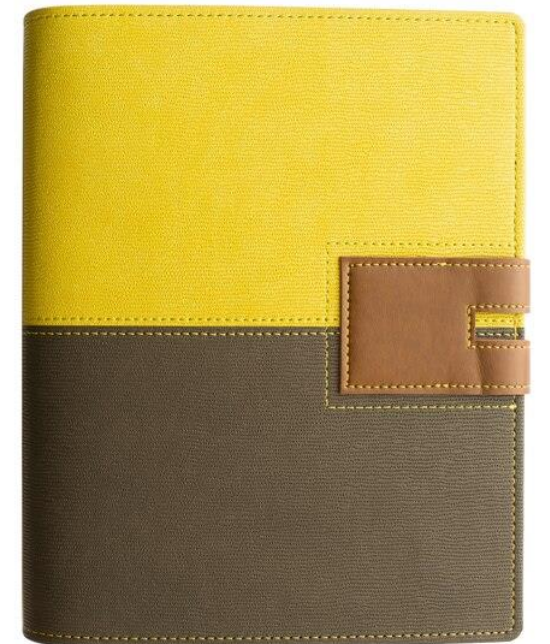

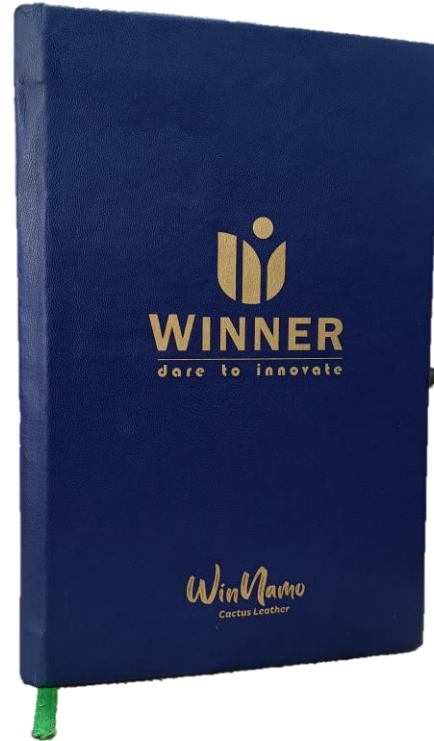

Sports

We supply PU/PVC to the world's sports industries. Many sports goods products are made up of leather. It is applied on sports goods items and renders comfortable grip. Artificial leather on sports goods like soccer balls, footballs, volleyballs, rugby balls, football studs, cricket gloves, cricket leg guards, cricket pads, boxing gloves, etc. is manufactured as per customers' requirements.

Accessories

The versatility of artificial leather allows it to be used in a wide range of products like purses, bags and briefcases, diary covers and stationery items, garments, belts, wallets, bags, purse, and sports items like gloves, pads, etc. PU/PVC leather allows manufacturers to make their products much more affordable. Also, they are able to create a much wider variety of highly durable, maintenance-free products. We manufacture artificial leather in vibrant colors and extraordinary textures, which allows manufacturers to create innovative, artistic, and fashionable products.

www.winnernippon.com

Medical

Winner Nippon, a leader in innovative materials, introduces premium leather sheets for medical upholstery and furnishing needs. Crafted with precision and quality, these leather sheets offer superior durability, ensuring long-lasting comfort and support in healthcare settings.

Designed to meet stringent hygiene standards, Winner Nippon's medical upholstery provides easy cleaning and maintenance, ideal for hospital beds, examination tables, and waiting room furniture. Complementing this, their medical furnishing range includes ergonomic furniture and fixtures tailored for healthcare environments, guaranteeing both patient comfort and efficient medical procedures. With Winner Nippon's commitment to excellence, healthcare facilities can trust in the reliability and performance of their leather solutions for a seamless medical experience.

Lead and Lead Free Aprons

Winray healthcare is working as the primary manufacturer, supplier and exporter of best quality range of x-ray radiation protection apparels. The offered x-ray radiation protection apparels act as a protective barrier for patients, technicians, doctors, and surgeons to foreclose possible harms from radiation during x-ray process.

Winray healthcare offered x-ray radiation protection apparels are manufactured by the specialists using advanced technologies with best quality material.

X-ray radiation protection apparels are BARC and LMG certified and carefully tested by in house quality controllers on well-defined factors in order to provide perfect range at the customers end.

www.winnernippon.com

Automobiles

We offer an excellent range of PVC and PU synthetic leather for the automotive industry. While beautiful seat upholstery is one of the most important parts of the experience that an automobile can offer, artificial leather is used in various other parts including door trims, steering wheel covers, gear boot and knob covers, roof lining, sun visors, and hoods.

The applicability of artificial leather in cars, buses, trucks, agricultural vehicles, and motorcycles values it as a great product for the automotive industry. Its high elasticity makes it extremely comfortable, and its resistance to hot and cold temperatures, water, alcohol, and stains makes it very durable and easy to maintain. We also offer great options for seat covers for the two-wheeler industry.

www.winnernippon.com

Heavy- Duty Automobiles

Our company, Winner Nippon Leatherette, leads the industry in crafting high-strength leather for heavy-duty automobiles like trucks, trains, airplanes, and tractors. Our products blend durability with stylish design, ensuring reliability under rigorous conditions. With a focus on quality and customer satisfaction, Winner Nippon is the go-to choice for top-tier leather solutions in the heavy-duty automotive sector.

Fire Retardant Fabric

- This is produced by high tenacity polyester woven fabric or knitted fabric called as Taffeta or woven.
- This is available in different colours.
- This is both side coated product.
- This product GSM range is from 40 to 1200gm.
- It has very good Fire Resistance, Self-Cleaning, Antimicrobial and Wash ability 40 to 100 cycles Minimum.
- This is tested as per UL 94, NFPA 701, AATCC, ASTM standards etc.

www.winnernippon.com

Sustainability Products

Our products are sustainable, providing environmental, social, and economic benefits while protecting public health and the environment over their whole lifecycle, from the extraction of raw materials until the final disposal. Bio-based leather has exceptional properties including durability, waterproofness, lightweight nature, and sustainability. It is a sustainable alternative to animal-derived leather as it doesn't cause much harm to the environment. The rise of sustainability as a focus and demands for cruelty-free leather has driven brands and major fashion houses to ditch fur and leather from their collections, focusing on substitutes made from plants or food waste, resulting in what is called bio-based materials or biomaterials.

RANGE OF SUSTAINABLE PRODUCTS

DRY PLANT LEAF BASED LEATHER

WinCool

Green Guard Leather

MINERAL BASED LEATHER

VINYL LEATHER

CACTUS BASED LEATHER

RECYCLE BASED LEATHER

NATURAL RESOURCES BASED LEATHER

LIFECYCLE OF FLORA

- 1. Collection Of fallen leafs and flowers:-**Begin by collecting fallen leaves and flowers from our Punjab's farm.
- 2. Processing:-** Use precise methods to turn these materials into a leather-like sheet.
- 3. Leather Sheet:-** This sheet serves as the base material for our products.
- 4. Q.C of Product:-** We thoroughly check each item to ensure it meets our standards.
- 5. Inspection:-**Every product undergoes careful inspection before packaging.
- 6. To Good manufactures:-** We supply our premium Flora leather to top manufacturers.
- 7. Final Product:-** Manufacturers create various goods from our leather, like shoes and bags.
- 8. Breakdown:-** After use, our Flora leather naturally breaks down, most of it returns back to the environment in Anaerobic conditions.
